TARIFF FORMAT

- A. Sheet Numbering - Sheet numbers appear in the upper right corner of the page. Sheets are numbered sequentially. However, new sheets are occasionally added to the tariff. When a new sheet is added between sheets already in effect, a decimal is added. For example, a new sheet added between sheets 14 and 15 would be 14.1.
- B. Sheet Revision Numbers - Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current sheet version on file with the Commission. For example, the 4th revised Sheet 14 cancels the 3rd revised Sheet 14. Because of various suspension periods, deferrals, etc. the Commission follows in their tariff approval process, the most current sheet number on file with the Commission is not always the tariff pages in effect. Consult the check sheet for sheet currently in effect.
- C. Paragraph Numbering Sequence - There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level:
- 2.
  - 2.1.
  - 2.1.1.
  - 2.1.1.A.
  - 2.1.1.A.1.
  - 2.1.1.A.1.(a).
  - 2.1.1.A.1.(a).I.
- D. Check Sheets - When a tariff filing is made with the Commission, an updated check sheet accompanies the tariff filing. The check sheet lists the sheets contained in the tariff, with a cross reference to the current revision number. When new pages are added, the check sheet is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (\*). There will be no other symbols used on the check sheet if these are the only changes made to it (i.e., the format, etc. remains the same, just revised revision levels on some pages). The tariff user should refer to the latest check sheet to find out if a particular sheet is the most current on file with the Commission.

## SECTION 3.0 - DESCRIPTION OF SERVICES, (CONT'D.)

## 3.2 Calculation of Distance

Usage charges for all mileage sensitive products are based on the airline distance between serving wire centers associated with the originating and terminating points of the call. The serving wire centers of a call are determined by the area codes and exchanges of the origination and destination points.

The distance between the Wire Center of the Customer's equipment and that of the destination point is calculated by using the "V" and "H" coordinates found in BellCore's V&H Tape and NECA FCC Tariff No. 4.

Step 1 - Obtain the "V" and "H" coordinates for the Wire Centers serving the Customer and the destination point.

Step 2 - Obtain the difference between the "V" coordinates of each of the Wire Centers. Obtain the Difference between the "H" coordinates.

Step 3 - Square the differences obtained in Step 2.

Step 4 - Add the squares of the "V" difference and "H" difference obtained in Step 3.

Step 5 - Divide the sum of the square obtained in Step 4 by ten (10). Round to the next higher whole number if any fraction results from the division.

Step 6 - Obtain the square root of the whole number obtained in Step 5. Round to the next higher whole number if any fraction is obtained. This is the distance between the Wire Centers.

Formula =

$$\sqrt{\frac{(V1 - V2)^2 + (H1 - H2)^2}{10}}$$

For Person-to-Person calls chargeable time begins when the designated party comes on the line, or when the caller agrees to speak with a substitute party.
- 3.2.2 Chargeable time ends when the connection is terminated.
- 3.2.3 Chargeable time does not include the time lost because of known faults or defects in the service.
- 3.2.4 The initial and additional timing periods for billing purposes vary by product and are specified in Section 4 of this tariff.
- 3.2.5 The Company will not bill for unanswered calls. When a Customer indicates that he/she was billed for an incomplete call, Legacy will reasonably issue credit for the call.

## 3.4 Time of Day Rate Periods

For time of day sensitive services, the appropriate rates apply for day, evening and night/weekend calls based on the following chart:

5:00 PM TO 10:59 PM	EVENING RATE PERIODOROFF PEAK RATE PERIOD						
11:00 PM TO 7:59 AM	NIGHT/WEEKEND RATE PERIODOROFF PEAK RATE PERIOD						

- 3.4.1 Day, Evening, and Night/Weekend times are determine by the local time of the location of the calling service point. Chargeable time for a rate period (e.g. 8AM-5PM) begins with the first stated hour (8AM) and continues to, but does not include, the second stated hour (5PM). The rate applicable at the start of chargeable time at the calling station applies to the call during the duration of the call that is applicable to that time period. If a call begins in one discount period and ends in another, the initial period discount applied is the discount in effect at the time the call is established. The charge for each additional minute of usage is the additional minute billing rate of the rate period in which the beginning of each minute occurs.

Institutional operator assisted service allows inmates to place collect calls through an automated call processing system. SECTION 3.0 - DESCRIPTION OF SERVICES, (CONT'D.)

## 3.6 Institutional Operator Assisted Calling, (Cont'd.)

## 3.6.2 Prepaid Institutional Operator Assisted Calling

## (A.) General

Legacy Prepaid Institutional Calling Services provide alternative payment arrangements for Inmates in Correctional Institutions. This service is designed for those whose credit history is inadequate to receive collect calls; Called Parties whose usage exceeds credit limits established for the institution; inmates who wish to utilize their commissary funds for call placement; and Called Parties who simply wish to budget their inmate calls.

Two options are available with Prepaid Institutional Calling Services. The first option, Debit Card/Debit Account, allows the Inmate (via the Institution personnel) to set up his/her own account/card at the Correctional Institution. The second option, Prepaid Collect, allows the Called Party who receives collect calls from Inmates to set up his/her own prepaid account.

Prepaid Institutional Calling Services are available 24 hours a day, seven days a week. Access to telephone service by an Inmate may be subject to time of day and usage restrictions imposed by individual Facilities.

SECTION 3.0 - DESCRIPTION OF SERVICES, (CONT'D.)

## 3.6 Institutional Operator Assisted Calling, (Cont'd.)

## 3.6.2 Prepaid Institutional Operator Assisted Calling, (Cont'd.)

## (B) Prepaid Debit Service

With a Debit Card or Debit Account (collectively referred to as "Debit"), each Inmate has the option to transfer funds from his/her commissary account to purchase a debit card or have calls paid for directly out of the Inmate's commissary account.

This is accomplished by facility personnel or through a direct interface between the commissary system and the inmate phone system. This account is associated with the Inmate's Personal Identification Number (PIN). When the Inmate places a call, he/she has the option of calling collect or debit. Once debit is selected, the inmate enters the PIN and called telephone number. All purchases on a Debit Account are paid to and handled by the Institution. The Company receives payment from the Facility; it does not engage in direct monetary transactions with the Inmate. Debit cards or Debit Accounts may be purchased in any amount subject to the requirements or restrictions of the Facility.

The Company's system automatically informs the caller of the available usage balance remaining in the Prepaid Account, and provides prompts to place the call by entering the destination telephone number. Network usage is deducted from the available usage balance in the account on a real time basis as the call progresses.

Available balances in the Debit Card or Debit Account are refundable by request of the Inmate (typically after release). The available usage balance expires six (6) months from the date the last call is made on the account or card. Since services are consumed in the order purchased, each new purchase will typically reset the expiration timeframe. No refunds will be issued after the service expiration date.

Network usage for a Debit call is deducted from the available usage balance in full minute increments. For debiting purposes, call timing is rounded up to the nearest one (1) minute increment. Usage charges are computed and rounded up to the nearest penny on a per call basis.

## 3.6.2 Prepaid Institutional Operator Assisted Calling, (Cont'd.)

## (C) Prepaid Collect Service

Prepaid Collect service is available for Called Parties who choose to pay for services through a prepaid arrangement. A Prepaid Collect account is set up by the Company for the Called Party. If the payment into the account is provided via the Called Party's credit card, credit verification procedures are carried out under the terms specified in Section 2 of this tariff. The Company does not engage in direct monetary transactions with the Inmate.

The Company's system automatically informs the account holder of the available usage balance remaining in the Prepaid Collect account prior to acceptance of the call. Network usage is deducted from the balance in the account on a real time basis as the call progresses. The account holder will also receive a reminder message when the account balance has one minute of usage remaining. All calls must be charged against an Account that has sufficient available balance. Calls in progress will be terminated by the Company if the balance on the Account is insufficient to continue the call.

Payments for Prepaid Collect accounts and any available usage balance are refundable upon request, typically after release of the Inmate. The available usage balance expires six (6) months from the date the last call is made on the Prepaid Collect account. Since services are consumed in the order purchased, each new purchase will typically reset the expiration timeframe. Consumers may cancel services and request a refund prior to expiration. No refunds will be issued after the expiration date.

Initial or additional deposits to Prepaid Collect accounts may be made via selected retail outlets with which the Company may contract to receive Customer payments, or via Western Union, commercial credit card, debit card or e-checks. Payments may be made in any amount.

Prepaid Collect Services are available 24 hours a day, seven days per week. Access to telephone service by an inmate may be subject to time of day and usage restrictions imposed by individual Correctional Institutions.

Network usage for a Prepaid Collect call is deducted from the available usage balance in full minute increments. For debiting purposes, call timing is rounded up to the nearest one (1) minute increment. Usage charges are computed and rounded up to the nearest penny on a per call basis.
